

I would love to be considered for the opportunity to become a board member. I have lived in the community for 17 years after finally finding my dream home. My first home was close by, and I would often drive into the Villages of Westcreek with a sparkle in my eye, saying to myself, someday I will live here. I have always loved the way the neighborhood looked, so well maintained and uniformed. The homes were all so beautiful with well-loved lawns and exteriors. This is where I wanted to be, this is what I wanted to be a part of. It took a few years, but I finally got here!

I live in the Estates with my husband and our son who graduated from Brennan. We also have 2 older daughters, a pharmacist and a teacher. And we have 2 grandchildren. One attends Brennan and the other Luna. We as a family volunteer for Elf Louise each year, with the exception of COVID impacted years. It's our family tradition.

I have worked for many great organizations, Chase, Citibank and now have been at USAA for almost 16 years. I have held individual contributor roles as well as leadership roles. This has afforded me a wealth of business, organizational and analytical experience which can be applied to areas outside of work and into my everyday life.

About a year and a half ago I volunteered to be an alternate member of the ARC (Architectural Review Committee) and was quickly moved to regular member and then Chair. I enjoy reviewing the PIAs (Property Improvement Applications) that are submitted and to be part of the continued maintenance and beautification of this wonderful neighborhood. As well as being on the ARC, I was also a pioneer member of the Communication Committee and helped bring the Villages of Westcreek to the digital age by creating their first Facebook presence. Last year I was a member of the Nomination Committee helping to ensure the election for the new board members was run seamlessly.

As a community member I asked the Board to extend the decorating days for Halloween to match the winter Holidays and also to have a Halloween decorating contest similar to the Christmas contest. As I drove around the community, I could see how much residents enjoyed decorating for Halloween, this was a way to recognize and include them! It was approved and implemented this past year. This had minimal impact to expenses but brought the community excitement. This is an example of how your voice can be heard. I encourage each of you to be forthcoming with suggestions, concerns, or ideas. While they may not all be feasible, it doesn't hurt to try.

Thank you,  
Lynette
